Resultado de la investigación

Gold Extraction from a Refractory Sulfide Concentrate by Simultaneous Pressure Leaching/Oxidation

Valenzuela.García, J. L., Juan Carlos, S. U., Encinas Romero, M. A., Tiburcio Munive, G. D. C., Vázquez Vázquez, V. M. & Parga-Torres, J. R., 12 ene. 2023, En: *Minerals*. 13, 116, p. 1 11 p., 13.

Thermodynamic and Kinetic Study for Silver Recovery by Electrocoagulation Process

Montaño, E., Vázquez, V., Valenzuela, J. L., Tiburcio, G., Parga, J., Valenzuela, A. & Encinas, M., feb. 2022, En: *MINING, METALLURGY AND EXPLORATION*. 39, 1, p. 153-159 7 p.

Thermodynamic and Kinetic Study for Silver Recovery by Electrocoagulation Process

Montaño-Silva, E., Vázquez Vázquez, V. M., Valenzuela, J. L., Encinas Romero, M. A., Tiburcio Munive, G. D. C., Valenzuela Soto, A. & Parga-Torres, J. R., 1 nov. 2021, En: *MINING, METALLURGY AND EXPLORATION*. p. 01 7 p.

Dissolution of Silver and Gold with Sodium Hypochlorite and Hydrochloric Acid in Refractory Minerals (Mangano-Argentíferous)

Tiburcio-Munive, G., Salazar-Campoy, M. M., Valenzuela-García, J. L., Hernández-Negrete, O. & Vázquez-Vázquez, V., 15 abr. 2020, En: *MINING, METALLURGY AND EXPLORATION*.

DISSOLUTION OF SILVER AND GOLD WITH SODIUM HYPOCHLORITE AND HYDROCHLORIC ACID IN REFRACTORY MINERALS (MANGANO-ARGENTIFEROUS) <https://doi.org/10.1007/s42461-020-00216-7>:

DISSOLUTION OF SILVER AND GOLD WITH SODIUM HYPOCHLORITE AND HYDROCHLORIC ACID
Tiburcio Munive, G. D. C., Salazar Campoy, M. M., Valenzuela, J. L., Hernández Negrete, O. & Vázquez Vázquez, V. M., 15 abr. 2020, En: *MINING, METALLURGY AND EXPLORATION*. p. 1-15 15 p., 2.

Dissolution of Silver and Gold with Sodium Hypochlorite and Hydrochloric Acid in Refractory Minerals (Mangano-Argentíferous)

Tiburcio-Munive, G., Salazar-Campoy, M. M., Valenzuela-García, J. L., Hernández-Negrete, O. & Vázquez-Vázquez, V., 1 ene. 2020, (Aceptada/en prensa) En: *MINING, METALLURGY AND EXPLORATION*. 37, 4, p. 1213-1220 8 p.

Leaching Gold and Silver with an Alternative System, Glycine: Thiosulfate from Mineral Tailings: Glycine and Thiosulfate from Mineral Tailings

Tiburcio Munive, G. D. C., Encinas Romero, M. A., SALAZAR CAMPOY, MARIA. M., Vázquez Vázquez, V. M., Álvarez Montaño, V. E. & C. CHOQUE, DANDY., 2020, En: *JOM*. 72, 2, p. 918-924 7 p.

Pre-treatment for the extraction of manganese from mangano-argentíferous refractory tailings

Tiburcio Munive, G., Encinas Romero, M. A., Valenzuela Soto, A., Vazquez Vazquez, V. & Coronado Lopez, J. H., 3 jul. 2018, En: *Canadian Metallurgical Quarterly*. 57, 3, p. 312-318 7 p.

Defluoridation of groundwater in central Mexico by electrocoagulation

Luna, J., Martínez Villafañe, J. F., Montero, C., Muñiz, C., Ortiz, J., Gonzalez, G., Vazquez, V. & Equihua, F., 1 abr. 2018, En: Fluoride. 51, 1, p. 34-43 10 p.

Recovery of Gold and Silver by Pressure Cyanidation Leaching and Electrocoagulation

Valenzuela, J. L., Soto Uribe, J. C., Vázquez Vázquez, V. M., Tiburcio Munive, G. D. C., Encinas Romero, M. A. & Parga Torres, J. R., 27 feb. 2018, *2018 SME Annual Conference: International: Updates on Mining in Mexico*. 2018 ed. Minneapolis, Minesota, EUA: Society for Mining, Metallurgy and Exploration, 2829088

Defluoridation of groundwater in central Mexico by electrocoagulation

Luna, J., Martínez Villafañe, J. F., Montero, C., Muñiz, C., Ortiz, J., Gonzalez, G., Vazquez, V. & Equihua, F., 1 ene. 2018, En: Fluoride. p. 34-43 10 p.

Dissolution of Gold and Silver with Ammonium Thiosulfate from Manganese-Argentiferous Ores Treated in Acid-Reductive Conditions

Tiburcio Munive, G., Encinas Romero, M. A., Vazquez, V. M., Valenzuela García, J. L., Valenzuela Soto, A. & Coronado Lopez, J. H., 1 oct. 2017, En: JOM. 69, 10, p. 1901-1908 8 p.

An Improved Process for Precipitating Cyanide Ions from the Barren Solution at Different pHs: Mejora del proceso de Precipitación de Iones cianuro a partir de soluciones a diferentes pHs

Figueroa, G. V., Parga, J. R., Valenzuela, J. L., Vázquez, V., Valenzuela, A. & Rodríguez, M., 1 feb. 2016, En: JOM. 68, 2, p. 540-547 8 p.

Synthesis and characterisation of strontium hexaferrite using an electrocoagulation by-product

González, G., Parga, J. R., Moreno, H. A., Ramos, J., Martínez, F., Martínez, R. & Vazquez, V., feb. 2016, En: Journal of Chemical Research. 40, 2, p. 110-113 4 p.

Recovery of Silver from Cyanide Solutions Using Electrochemical Process Like Alternative for Merrill-Crowe Process.

Vázquez Vázquez, V. M., Tiburcio Munive, G. D. C., Valenzuela Soto, A., Tiburcio Munive, G. D. C. & Figueroa, G. V., 4 oct. 2014, En: Materials Sciences and Applications. 5, p. 863-870 8 p., 1.

Detoxification of cyanide using titanium dioxide and hydrocyclone sparger with chlorine dioxide

Parga, J. R., Vazquez, V., Valenzuela, J. L., Matamoros, Z. & Gonzalez, G., 1 dic. 2012, En: Chemical Speciation and Bioavailability. 24, 3, p. 176-182 7 p.

Recovery of silver and gold from cyanide solution by magnetic species formed in the electrocoagulation process

Parga, J. R., Rodríguez, M., Vázquez, V., Valenzuela, J. L. & Moreno, H., 2012, En: Mineral Processing and Extractive Metallurgy Review. 33, 6, p. 363-373 11 p.

Analysis of the adsorption of gold and silver on magnetic species formed in the electrocoagulation process

Parga, J. R., Valenzuela, J. L. & Vazquez, V., 2011, *Materials Processing and Energy Materials*. Minerals, Metals and Materials Society, p. 267-275 9 p. (TMS Annual Meeting; vol. 1).

Thermodynamic studies of chromium adsorption on iron species generated by electrocoagulation

Parga, J. R., Vazquez, V., Gonzalez, G. & Cisneros, M. M., oct. 2010, En: Chemical Engineering and Technology. 33, 10, p. 1582-1590 9 p.

Cyanide detoxification of mining wastewaters with TiO₂ nanoparticles and its recovery by electrocoagulation

Parga, J. R., Vázquez, V., Casillas, H. M. & Valenzuela, J. L., 2009, En: Chemical Engineering and Technology. 32, 12, p. 1901-1908 8 p.
